UNIMIX

Integrated Healthcare Solutions

UNIMIX

Introduction

UNIMIX, is a veteran of the healthcare market established in 1991, currently holding PEC license of category: CB, we have been using our experience and expertise to supply and install healthcare provisions in Pakistan for 34 years, We are dedicated to delivering the highest quality at an effective price.

We aim to provide complete turnkey solutions for modern hospital needs, over the years UNIMIX has had the privilege of working with the most prestigious hospitals in Government, Semi-Government and Private sectors.

We work in conjunction with our partners and gather feedback from consultants, paramedical staff and patients, using this information to improvise and perfect the art of turn-key solutions for hospitals and pharmaceutical companies.

We provide a range of medical goods, specializing in the Field of: Medical gases pipelines and systems, Hospital furniture, Modular Operating Theaters, HVAC and Clean room solutions.

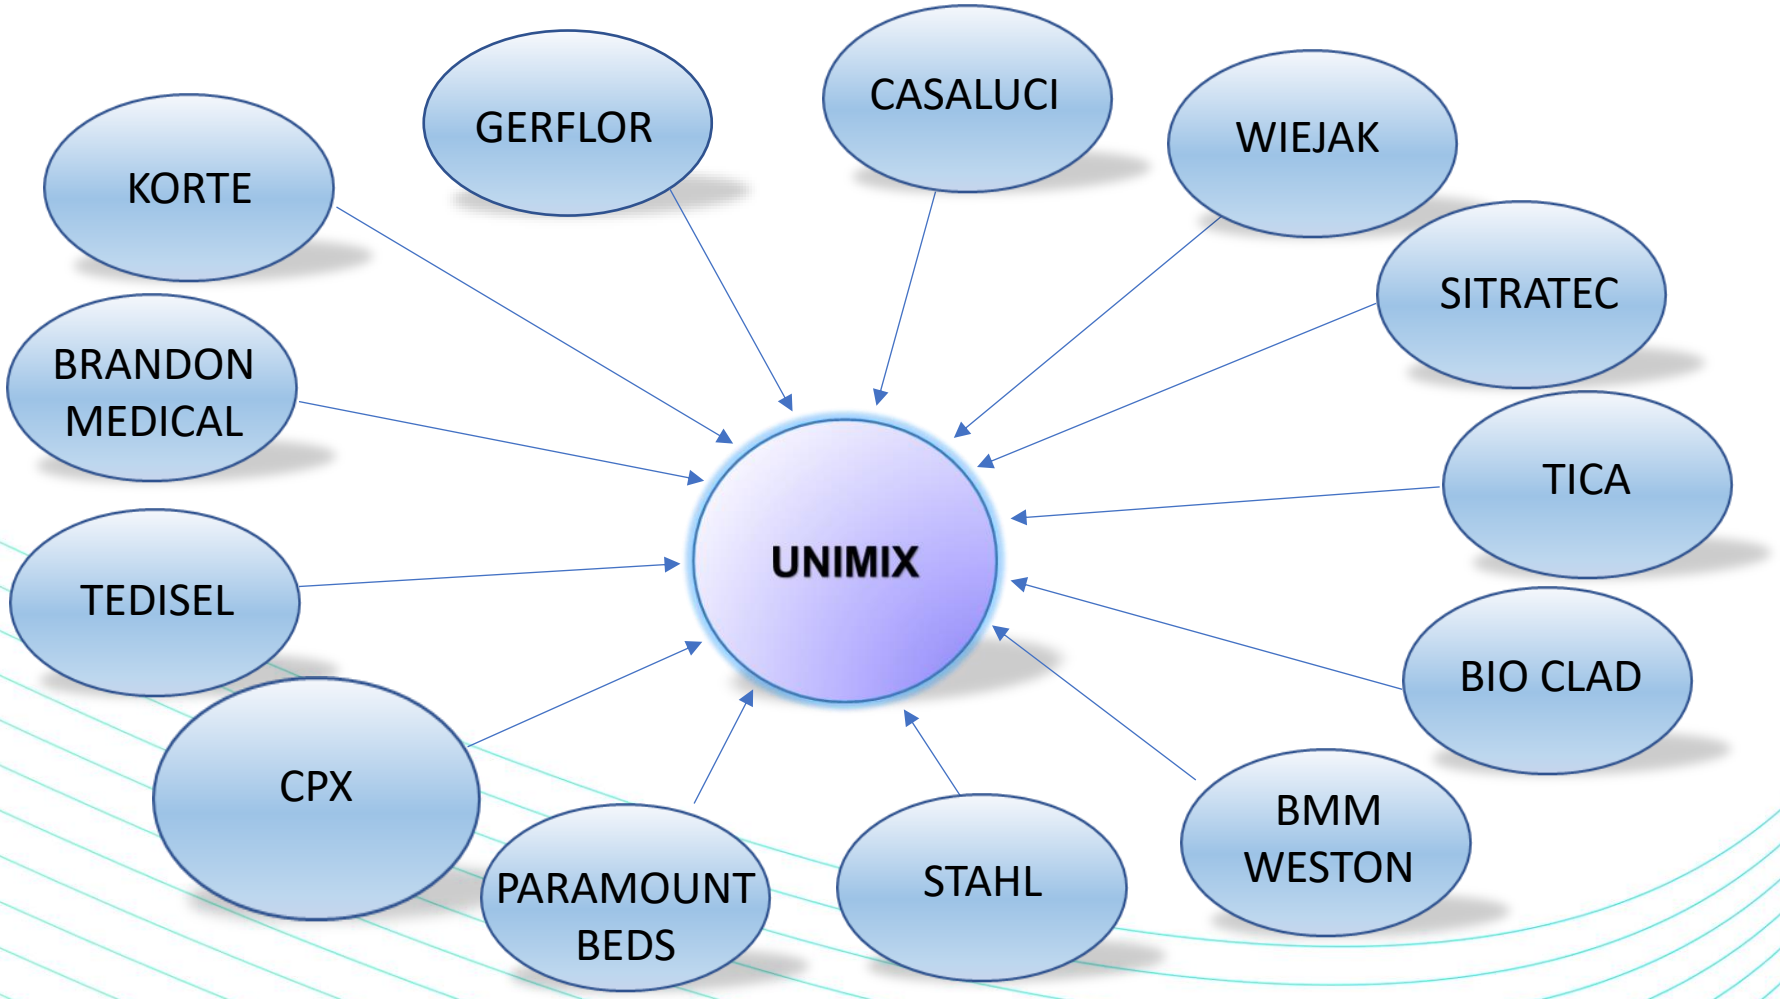

Introduction

Over the past years UNIMIX has worked in many hospitals, pharmaceuticals, laboratories and medical colleges including below mentioned and many more:

CMH Lahore	Military Hospital	Mega Hospital	Wapda Hospital	PAF Lahore	Allied Hospital
CMH Attock	Armed Forces Institute of Urology	Peshawar Institute of Cardiology	Doctors Hospital Lahore	PAF Karachi	Shiekh Zaid Hospital
CMH Kharian	Fauji Foundation Hospital	Ayub Teaching Hospital	Doctors Hospital Gujrat	PAF Shorkot	DHQ Wazirabad Hospital
CMH Hulls	Ghurki Trust and Teaching Hospital	Bahria Hospital Lahore	Hameed Latif Hospital	PAF Islamabad Unit 3	DHQ Lodhran Hospital
CMH Pano Aqil	Shifa International Hospital	Bahria Hospital Karachi	Surgimed Hospital	Doctor Humayun Hair Transplant	THQ Tandlianwala
CMH Peshawar	Social Security Hospital	Kulsoom International	Shalimar Hospital	Aslam Uppal Hospital	THQ Taunsa Hospital
CMH Karachi	PKLI Hospital	Saif Healthcare	Ittifaq Hospital	Farooq Hospital	Bashir Hospital
Naz Hospital	Gondal Hospital	Maroof Hospital	Ali Medical	Jinnah Hospital	Mughal Hospital

Brands

Our company have several International Brands under its Umbrella like

and many others for different requirements

Integrated Healthcare Building Solutions

- With a unique combination of proven solutions for Health care buildings consisting of Modular OTs, Central Medical Gases System, HVAC, Civil works and MEP. We provide the most comprehensive range of holistic approach to your requirements. And to ensure performance and flexibility in technical areas.

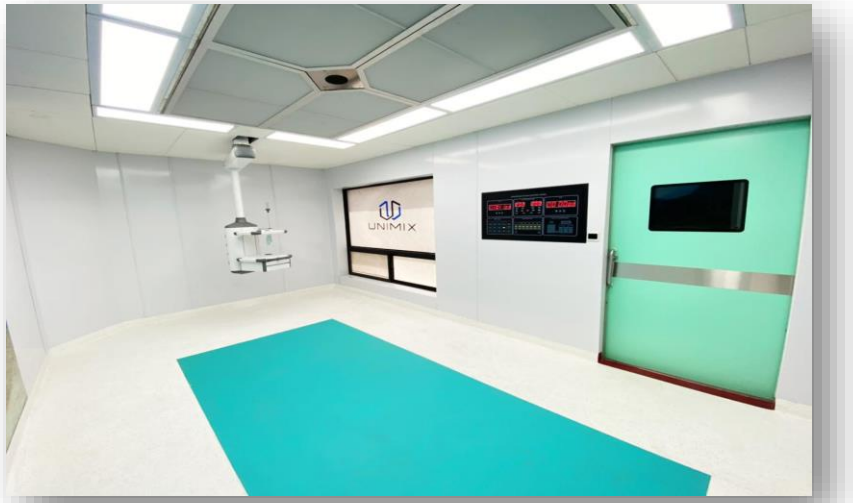

- A fantastic opportunity for our customers to have a combined and complete solutions. We have perfectly adapted to healthcare establishment expectations.

I. Unique Solutions
II. Perfect Combinations

- In addition, we offer very special systems and products for specific application and usage such as Audio/Video integration system, Control Console, Corner protections, Handrails, Hospital furniture etc.

Integrated Healthcare Building Solutions

- Integrated Solutions comprising of:

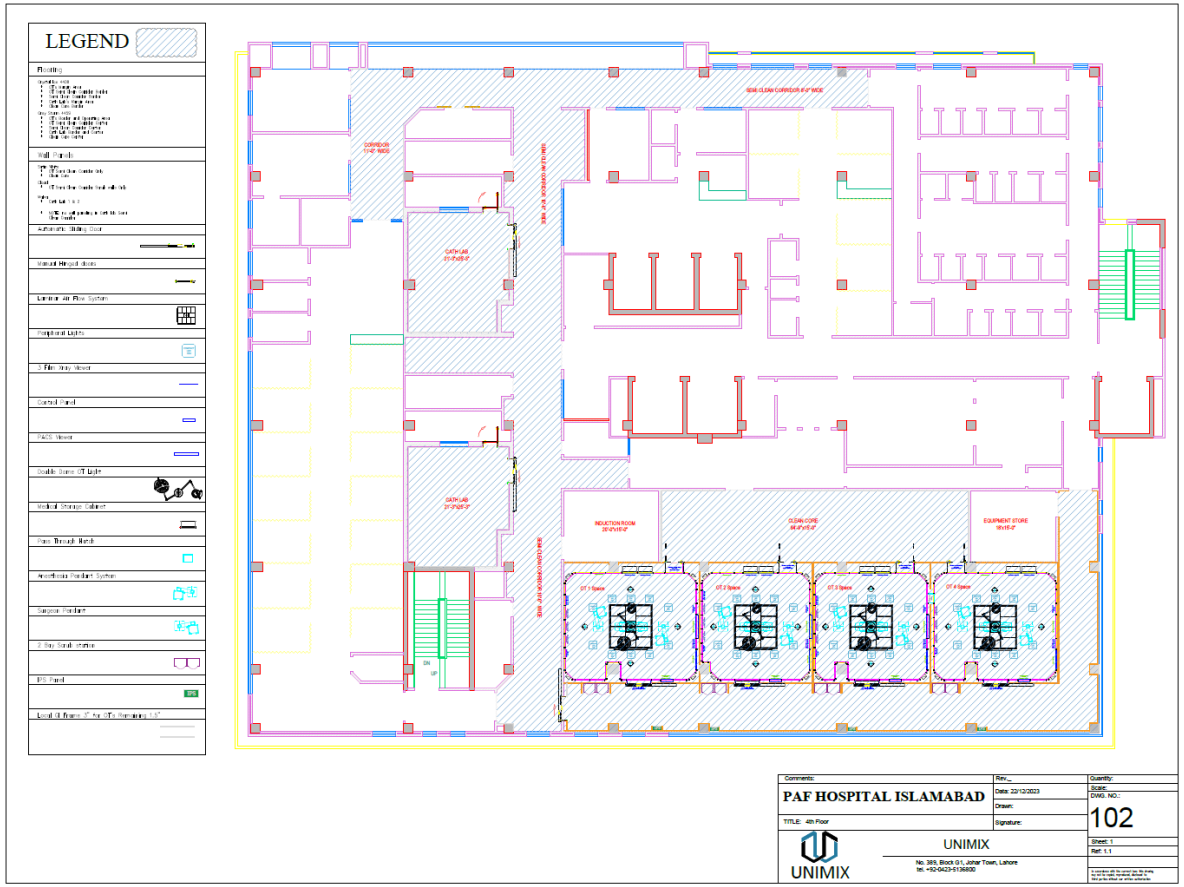

i. Modular/Semi Modular Operation Theatres
ii. Wall Panels
iii. Flooring
iv. Ceiling System
v. HVAC System
vi. Central Medical Gases System
vii. CSSD
viii. Laundry
ix. Pneumatic Tube System
x. Clean Room Solutions
xi. Hospital Furniture

UNIMIX

Modular Operation Theatre Block

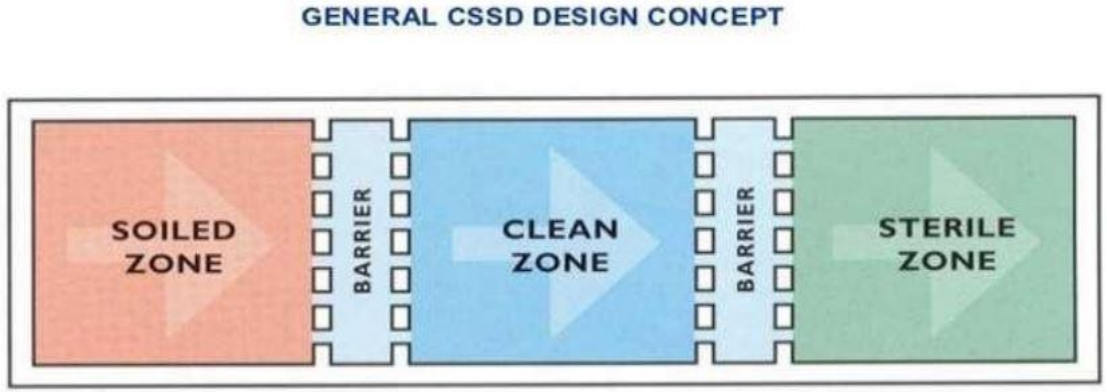

UNIMIX

CSSD Layout

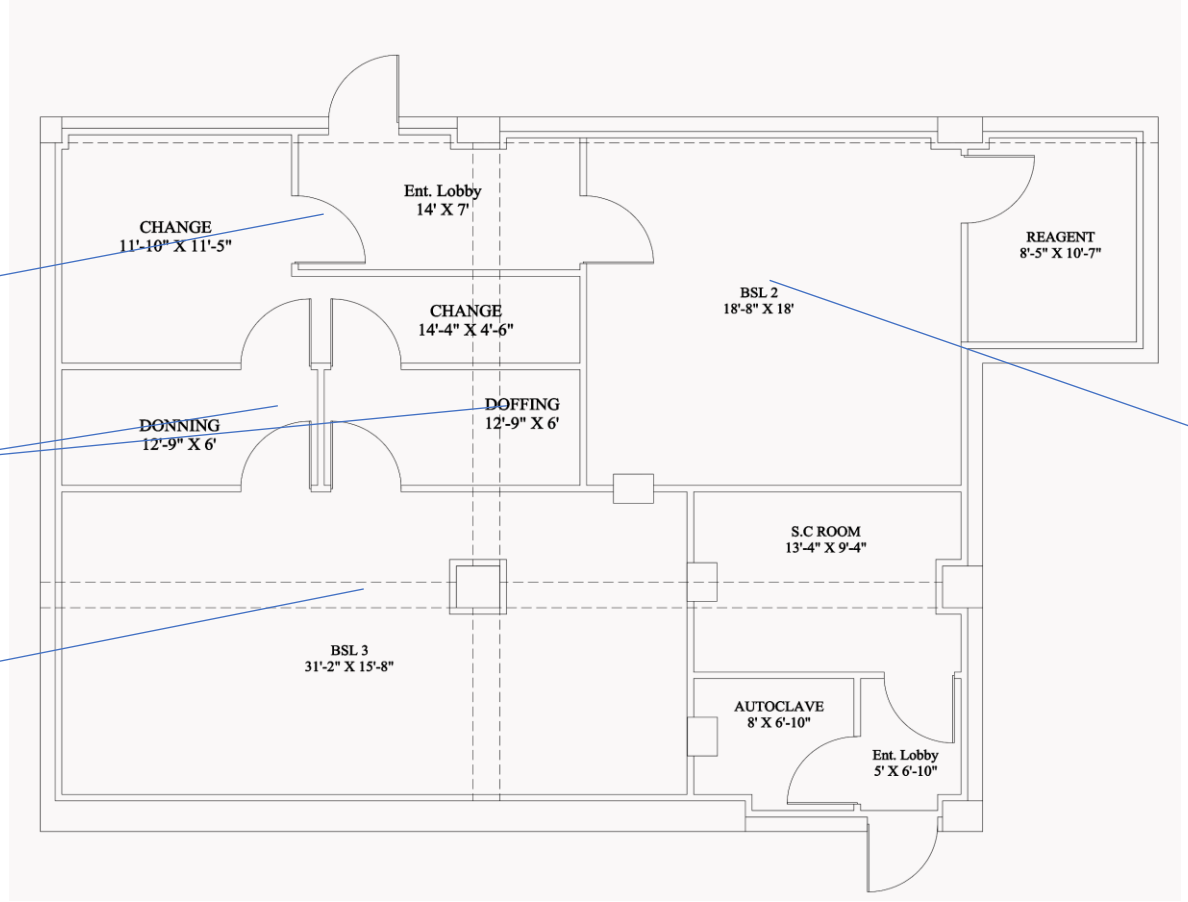

- Physical separation between soiled, clean and sterile zone
- The risk of cross-infection spread by staff is minimized

UNIMIX

Biosafety Lab

Air Pressure Neutral

Air Pressure Negative
-8 to -12Pa

Air Pressure Negative
-13 to -40Pa

Air Pressure Positive

UNIMIX

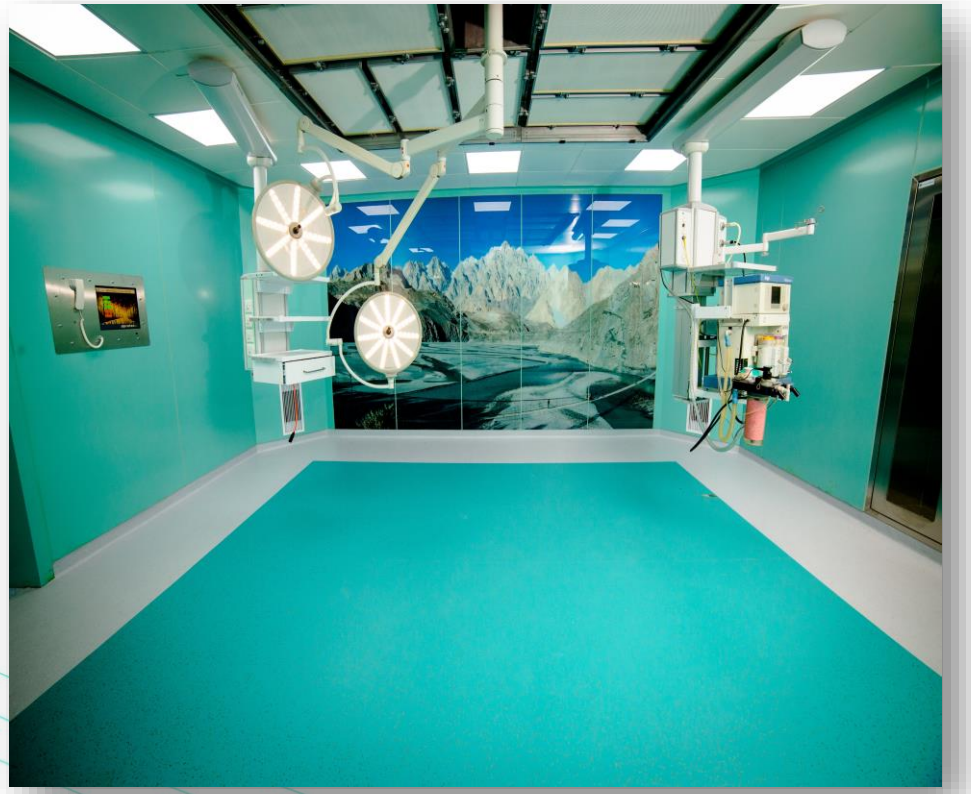

Modular Operation Theater

- Anti-Microbial Walls System
- Anti-Bacterial Flooring
- Anti-Bacterial Ceiling
- Peripheral Ceiling LED Lights
- Surgical Lights
- X-Ray Viewer
- Hermetic Door
- Built-in Pass Through Cabinet
- Built in Surgical Cabinet
- Surgeon Control Panel
- Laminar Air Flow System
- Operation Theatre Integrated System
- Scrub Unit
- HVAC system

Anti-Microbial Walls Panel (Modular System)

Gerflor Flooring

- Gerflor PVC Anti-bacterial flooring types available Anti-static, Dissipative and Conductive
- TVOC after 28 days < 10µg/m3 : indoor air quality
- Bfl-s1 fire resistance
- Anti viral activity (human coronavirus 229E) : ISO 21702
- Evercare Surface treatment
- Evercare avoid stains of chemical products used in healthcare and increase the durability of floor
- Flexible homogeneous vinyl floorcovering
- It is 100% phthalate free
- The product is nonreactive to residual indentation
- Suitable for heavy traffic areas.

Installed by UNIMIX in Hameed Latif Hospital Lahore

UNIMIX

Gerflor Anti-bacterial Flooring

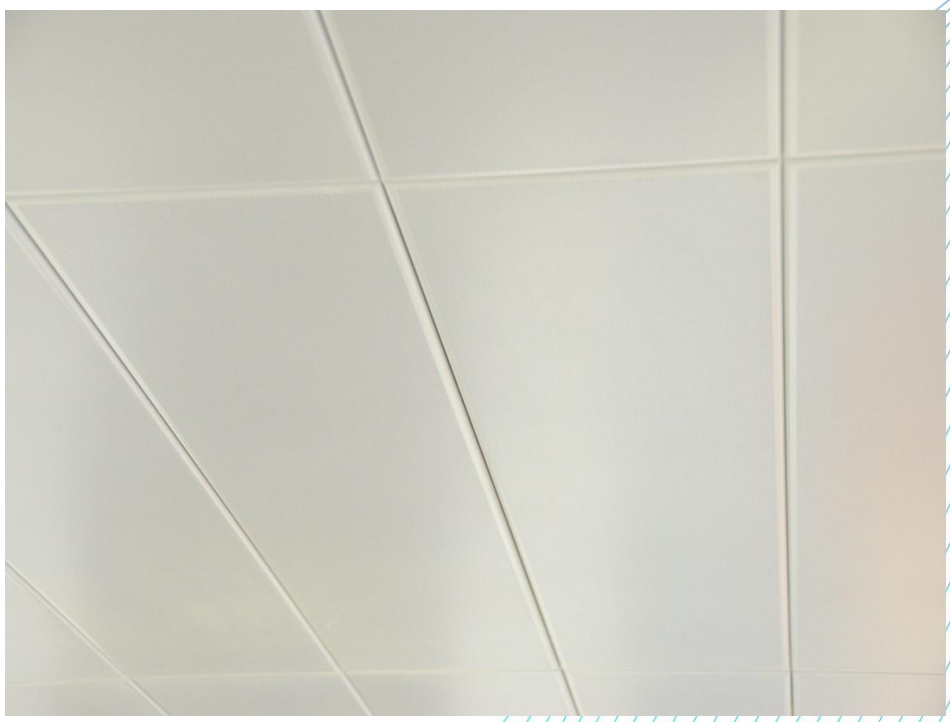

Some installed pictures of Gerflor Flooring from the projects we have done

Ceiling System

- Antimicrobial Medical Suspended Ceiling
- Secure void (simple access via tool to demount tile)
- Clip in system with hinge-down access
- Concealed grid (Deep Omega Bar suspension method)
- Closed joints with beveled edges
- Tiles can be scrubbed without displacing
- Resistant to Corrosion
- Humidity Resistant
- The entire ceiling system makes a uniform addition to the wall system installed forming a tight and hygienic structure.

UNIMIX

Control Panel

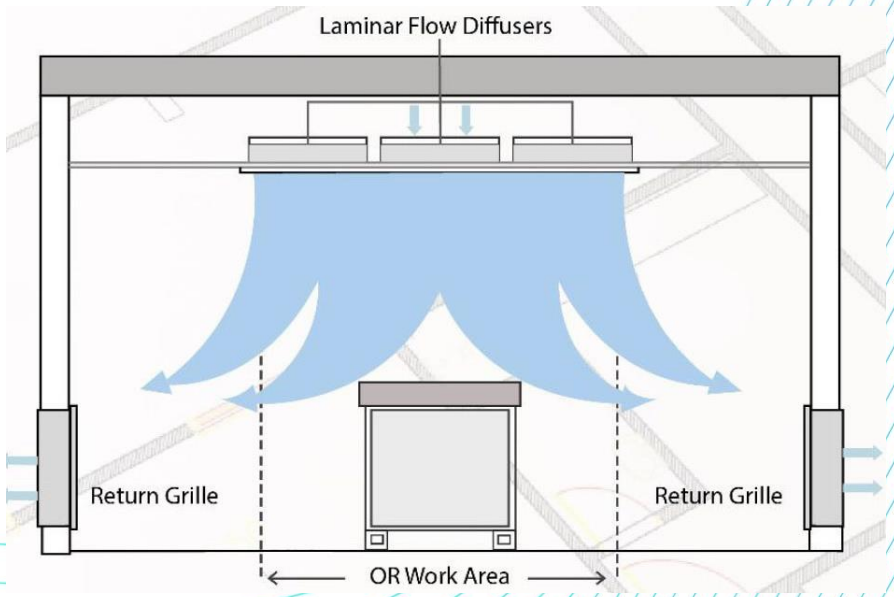

It is used to control all operating room system such as

- Flow rate monitoring setting in %
- Temperature and humidity set Output
- Medical gas alarm data
- UV light occupied light laminar flow light control
- Inputs protected against ESD and voltage spikes
- Hands free telephone & MP3 player

Laminar Air Flow System

- AISI 304 (1.4301) acid-resistant steel
- Minimum 0.8 mm acid-resistant steel.
- HEPA absolute filters used in WMSL laminar ceiling ensure filtration of supplied air at the level of 99.995% (H14 class filters)
- Rapid Strut rails for hanging to the ceiling

Scrub Unit (Korte)

- Solid surface products have invisible monolithic seams
- Aesthetically pleasing but also prevents accumulation of dirt in the seams
- Gently sloping shapes, which makes cleaning the sinks even easier
- The sinks can be installed separately or combined into units

Installed by UNIMIX in Ghurki Trust and Teaching Hospital Lahore

Operation Theatre Integrated System

- Integrates all Audio/Video Operating Theatre Devices and Audio/Video Management
- Digitalization and storage of images and video sequences on a local hard disc
- Control of the operation of cameras distributed in the operating theatre, including those incorporated in operating lamps
- Display Type: Flushed with Wall and 1 monitor 24" with Arm on OT light

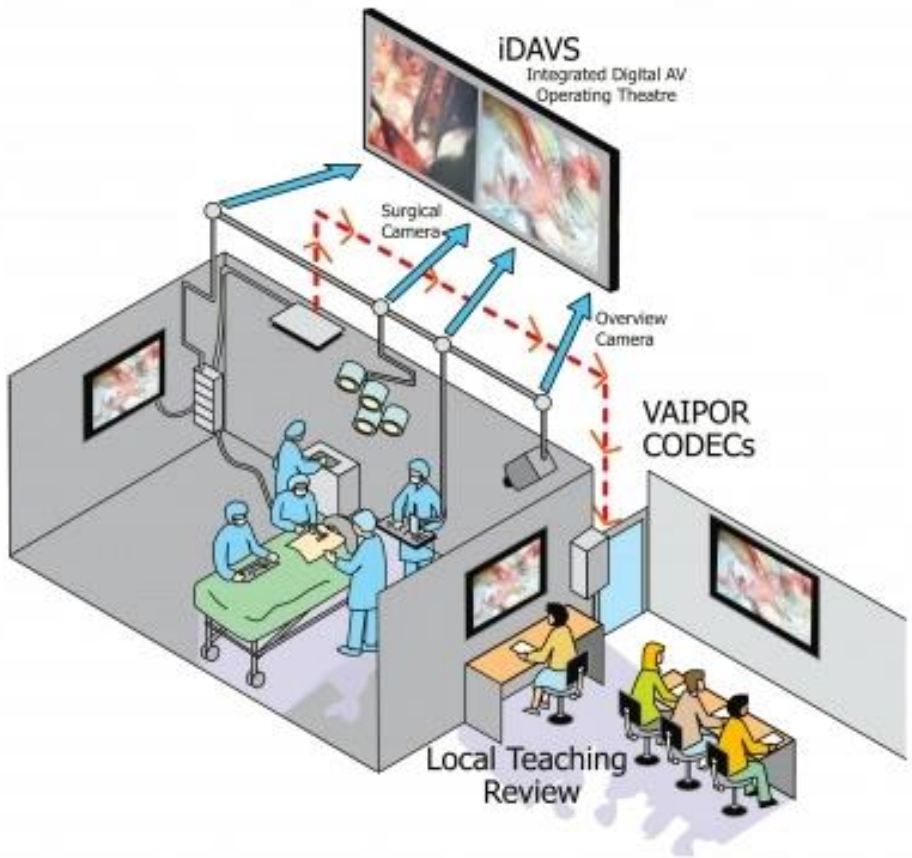

Pacs Viewer

- Wireless connection of microphone
- High Quality audio is the basis for good communication
- Easy Management and camera picture connection in operating room
- Easy saving of the recording directly onto a portable device
- Video Output: HDMI, Thunderbolt
- Internal hard drive

Audio/Video System

- Surgical Audio/Video System connects medical professionals to a range of Audio-Visual resources.
- Independent platform solution that can be easily integrated in to existing network.
- Doctors and nurses can access media from anywhere with a suitable network connection (subject to access controls)
- Medical video, images, data and audio can be streamed into university and hospital lecture theatres

UNIMIX

BIO | CLAD

World's No.1 Antimicrobial Walls Solution

- Bio-Clad® is resistant to a wide range of chemicals found within the medical, healthcare
- **BioCote technology** is incorporated into Bio-Clad as an additive which provides continuous built-in antimicrobial protection for the expected lifetime of product.
- Bio-Clad is Accredited by

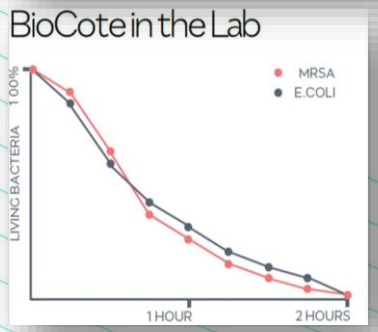

UNIMIX

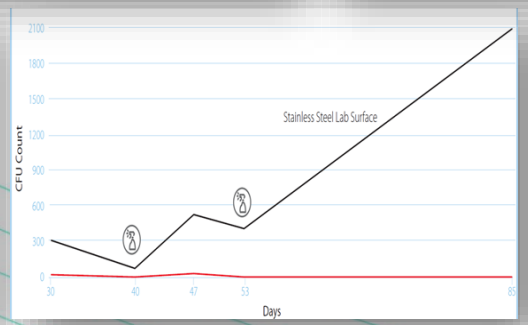

BIO | CLAD

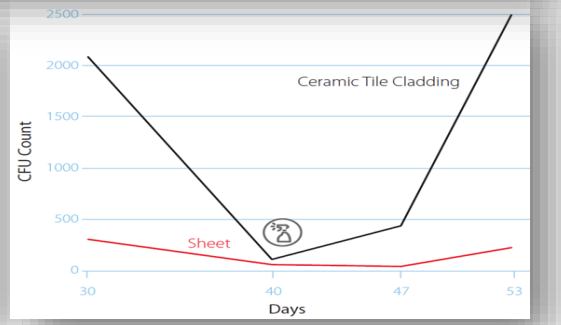

- Bio-Clad cut down the risks of cross-contamination and bacterial spread through 24/7, around the clock protection against E.coli and a long list of other microbes, bacteria and mold.

UNIMIX

BIO | CLAD

from the executed projects

Medical Gases Pipeline System

Core Medical Gases products are:

- Copper Tube and Fittings
- Gases Manifold
- Air Compressor
- Vacuum Pump
- AGSS Plant etc.
- Medical Gases Outlets
- AVSU
- Liquid Oxygen Tanks
- Oxygen Generators
- Ceiling mounted Pendants
- Bedhead Units
- Bedhead Walls

UNIMIX

Hand Rail Wall Guard & Corner Protection

- Hand Rail, Bottom Wall Guards & Corner Protections made of top cover Anti Bacterial PVC/ ABS ,back frame Aluminum rigid and durable fixed directly on the wall.
- Easy to Install

UNIMIX

Healthcare facility HVAC

- (HVAC) system are used to help maintain hygienic air quality through adequate ventilation with filtration and provide thermal comfort.
- Healthcare facility require efficient heating, ventilation and air conditioning (HVAC) systems to maintain hygienic air quality (IAQ), aseptic conditions, and to secure healthy, safe and suitable indoor thermal conditions (i.e. temperature, humidity, air quality and airflow) for the healthcare facility.
- HVAC with filtration systems are extremely important for patient invasive procedural areas and where viral or infectious disease are treated.

UNIMIX

HVAC Units

UNIMIX

Hospital Laundry

- Laundry services are responsible for providing safe, clean, adequate and timely supply of linen to user units of a hospital at right time, right quantity and right place.
- A reliable laundry service is of utmost importance to the hospital. In today's medical care facilities, linen should be changed on daily basis as per standards.
- The main purpose of this department is to provide clean material through out the hospital and ensure that hygienic conditions are maintained in the process.

Laundry System (Stahl)

- Commercial laundry technology from Washing Machine and dryers to the rotary ironers and folding machine .Stahl has been producing for over 100 years with high production depth.
- Stahl is continually developing new ground-breaking technologies for the laundry for the laundry system sector. Such as the Stahl super Through , the PTS Power Transmission System, the FREE pro microprocessor control unit, or the hydrodynamic washing process.

Laundry System (Stahl)

UNIMIX

Laundry System (Stahl)

UNIMIX

CSSD System

- The central sterile services department (CSSD), is an integrated place in hospitals and other health care facilities that performs sterilization and other actions on medical devices, surgical instruments, equipments and consumables; for subsequent use by health workers in the operating theatre of the hospital and also for other aseptic procedures.
- Properly designed central sterile supply department (CSSD)s facilitate one-way flow of items between soiled and clean work areas and sterile storage. Walls and other barriers separate the functional areas of a CSSD: decontamination, preparation and packaging, sterilization and sterile storage

UNIMIX

CSSD System (BMM Weston)

- BMM Weston builds and provide full range of products that meets the documentation level of today's medical environment.
- BMM Weston is accredited to ISO9001:2000 and all our devices and system comply with latest British, NHS and European standards.
- BMM Weston has more than 130 years of design and manufacturing experience. Our wide range of washer-disinfectors, steam sterilizers & laboratory washers are trusted and relied upon by the medical, science in the UK and internationally.

Washer Disinfector (BMM Weston)

UNIMIX

Pneumatic Tube System

- Pneumatic tube systems are basic inventory in hospitals with more than 100 beds. Because they are the best solution when long distances need to be covered and when seconds count, for example during surgery, when a blood product or a sample result is needed urgently. Whether blood-, tissue, urine samples or medication – when speed is vital, the hospital tube system will transport items fast, safe and shock-free.
- All the stations and departments of a hospital can be “physically” connected through a pneumatic tube system. Laboratory samples, blood and plasma, radioactive material, radiographs, documents can all be transported safely and gently.
